Job Description

We are seeking a .NET developer responsible for building .NET applications using C# .NET languages and SQL Server as a backend your primary responsibility will be to design and develop these layers of our applications, and to coordinate with the rest of the team working on different layers of the infrastructure.

A commitment to collaborative problem solving, sophisticated design, and quality product is essential.

Responsibilities

- Design, build, and maintain efficient, reusable, and reliable code
- Integrate data storage solutions may include databases, key-value stores, etc.
- Ensure the best possible performance, quality, and responsiveness of website applications.
- Identify bottlenecks and bugs, and devise solutions to mitigate and address these issues.
- Help maintain code quality, organization, and automation.
- Managing customizing current products and making them client specific in nature.
- Maintain a log book for code and working on daily basis.
- Maintain and building Requirement Analysis Document.
- Development of Data Base schema project specific.

Skills

- Strong knowledge of .NET web framework with latest version of VS.
- Proficient in C# .NET, with a good knowledge of their ecosystems.
- Familiarity with the Mono framework.
- Strong understanding of object-oriented programming
- Skill for writing reusable libraries
- Familiar with various design and architectural patterns
- Knowledge of concurrency patterns
- Familiarity with Microsoft SQL Server if deemed necessary for the project needs.
- Knack for writing clean, readable, and easily maintainable code
- Understanding of fundamental design principles for building a scalable application
- Experience creating database schemas that represent and support business processes
- Basic understanding of Common Language Runtime (CLR), its limitations, weaknesses, and workarounds
- Experience implementing automated testing platforms and unit tests.

#Note Candidate with experience less than 12 month needs to sign a registered security agreement of INR 70000.00 with us.

Positively,
